MEMORANDUM FOR: Executive Secretary

SUBJECT: Vote Sheet Action

REFERENCE: Revision of DCID 1/7
"Control of Dissemination of
Intelligence Information"

1. In regard to the referenced matter:

a. I concur with the draft revision
of DCID 1/7 as written. _____

b. I concur with the addition of the
NSA proposed addition of paragraph 6f to
the written draft of DCID 1/7. _____ X (subject to DIA recommendations
in paragraph 2., below)

c. I cannot concur with either pro-
posed actions for reasons noted in para-
graph 2 below. _____

2. Comments/Recommendations:

Under paragraph 2., DIA recommends that the additional, proposed
paragraph 6.f., be modified to read substantially as follows:

"f. 'Not Releasable to Foreign Nationals' (NOFORN)

(1) Classified intelligence so marked means that the
originator has pre-determined that the foreign release of the
material is not appropriate. Originators may be requested to waive
their determination.

Security Services

(2) The control marking may be applied when:

(a) There would be a possible compromise of the status of relations with collaborating foreign governments or officials.

(b) Intelligence controlled under DCID 6/2 would be jeopardized.

(c) Intelligence has been officially obtained from a foreign government or national with the implied or explicit understanding that it not be given to any other country.

(3) This marking may be abbreviated NOFORN.

Remarks: The NSA proposal as it pertains solely to DCID 6/2 would limit the application of NOFORN to intelligence controlled under DCID 6/2. Further, DCID 6/2 pertains to information in SCI channels, and to attempt to define its provisions in an unclassified DCID 1/7 would not be feasible or desirable. The marking NOFORN should be provided for use in classified collateral as well as compartmented information, as required and appropriate. DIA believes that the NOFORN caveat is a useful and important security marking."

1. In regard to the referenced matter:

a. I concur with the draft revision
of DCID 1/7 as written. _____

b. I concur with the addition of the
NSA proposed addition of paragraph 6f to
the written draft of DCID 1/7. XX (With the modifica-
tion shown in paragraph 2, below.

c. I cannot concur with either pro-
posed actions for reasons noted in para-
graph 2 below. _____

2. Comments/Recommendations: Suggest the last line of
para "(1)" of the NSA proposed wording on the NOFORN control
marking be changed as follows: ". . . the material is not
authorized without prior approval of the originator."

RATIONALE: As written, the NSA proposed addition implies
that the application of "NOFORN" is final. The above suggested
change eliminates this implication and is consistent with
similar wording regarding use of the "REL," "ORCON," and
"NOCONTRACT" control markings.
